

Women in Automorphic Forms

4–6 October 2023, University of Konstanz

This is a conference in number theory and arithmetic geometry specially addressed to female mathematicians working in these areas. However, anybody interested in these topics is kindly invited to attend.

Invited Speakers

- Paloma Bengoechea, University of Barcelona
- Annika Burmester, Bielefeld University
- Claire Burrin, University of Zurich
- Anne-Maria Ernvall-Hytönen, University of Helsinki
- Özlem Imamoglu, ETH Zurich
- Katharina Jochemko, KTH Stockholm
- Marie-France Vignéras, IMJ-PRG Paris
- Katrin Wendland, Trinity College Dublin
