Universität Konstanz

Konstanz Women in Mathematics

Konstanz Women in Mathematics (KWIM) is a joint project of the Department of Mathematics and Statstics and the Equal Opportunity Council of the University of Konstanz. Its aim is to **promote and support female mathematicians** across different career levels.

KWIM key activities include:

– organising **lecture series** featuring mathematical results/biographies of female mathematicians and/or their experience in academia

– creating a **meeting point** for female mathematicians to promote them in their paths in studies and career

– offering a **Women2Women counseling**
