

Wir laden recht herzlich zu einem Vortrag im Rahmen des  
Oberseminars Partielle Differentialgleichungen  
ein:

## Prof. Dr. Jörg Seiler

(Università degli Studi di Torino)

*"Parameter-dependent pseudodifferential operators of finite regularity"*

**Donnerstag, 14. Februar 2019**

Beginn: **15:15 Uhr**

Raum: **F0426**

Interessenten sind herzlich willkommen!

R. Denk, R. Racke, O. Schnürer

---

**Zusammenfassung:** The seminar concerns a calculus for parameter-dependent pseudodifferential operators on  $\mathbb{R}^n$  introduced by Grubb. The specific feature of this calculus is the so-called "regularity" of the symbols. A new characterisation of regularity will be presented and it will be discussed how to extend the concept of parameter-ellipticity from symbols of positive regularity to symbols of vanishing or negative regularity.
